The Macrotheme Review (ISSN 1848-4735) is a peer-reviewed multidisciplinary journal publishing high quality articles on global macro trends in business, economics, finance, technology, demography, geopolitics, energy, the environment, and other. The common theme among these different disciplines is the implications for investors. We believe that the investment strategy is a multidisciplinary science; thus, this journal provides a common venue where authors can present their comments, arguments, and evidence about the global macro trends affecting the financial markets. *Please email your article attached as a .doc or .docx file to: [editor@macrotheme.com](mailto:editor@macrotheme.com).*
